Subject: [EXT] Re: Demand for Preservation of Electronically Stored Information and Other Evidence

Hi Pete,

I have told you we are pro se and we are looking for a lawyer. I can not respond. But I object to the requests in the subpoena because they are burdensome , not related to litigation and violate my first amendment rights. Again I'm looking for a lawyer and once I find one my representative will reach out.

Yes, I'm happy to explain that. Cooperation means agreeing to accept service of the subpoena that is directed to you personally (see attached). If you can confirm in reply to this email that you agree to accept service of this subpoena (through my email to you), we can offer the extension referenced in my earlier email to you, Below the Blue, and MTS, assuming each of you are agreeing to provide documents on a rolling basis.

Best regards,
Peter

For clarification - can you explain "cooperation from you in accepting service".
I have had no one ask me in person to accept service or to give me a subpoena.

In light of our need for the information we are seeking in the subpoenas, we can only offer an extension of time based on cooperation from you in accepting service and producing the documents requested (consistent with my prior email). Based on your response to my last email, we do not have an agreement to extend the time for any responses to the subpoenas we have served.

Should you change your mind as to our proposal, please let us know. Also, if you retain legal counsel please have your counsel contact us to continue any discussions regarding the subpoenas.

Best regards,

Peter

Hi Peter,

We need a 4-6 week extension. We are unrepresented currently and need time to hire proper counsel for such a request. We currently can not agree to the terms in your email.

Thanks in advance for the extension,

Seth Jones

Hi Seth -

Thank you for the email and confirming you received the subpoenas. We agree to provide 30 days to respond but ask that you provide documents on a rolling basis - prioritizing documents that are easily accessible and readily available. Also, we will need your agreement to cooperate with the service of subpoenas going forward.

If you have legal counsel, please ask them to contact us.

Best regards,
Peter Meier

Subject: [EXT] Re: Demand for Preservation of Electronically Stored Information and Other Evidence

Hi Navi,

We would like to request a 6 week extension in the due date for producing materials related to the subpoenas for:

Below the Blue

As well as

We received the BtB Subpoena legally but actually do not have a binding one for MTS even though a server left one randomly on a desk inside one of our office buildings on the 10th of Aug.

Regardless we are requesting a delay in response due to to far reaching nature of this document and the fact that finding the appropriate Lawyer and answering such a request will take months.

Thank you in advance for this extension,

Seth Jones
